

**REPORT ON SEMINAR**  
**“Intellectual Property Rights”**

on

**9th March 2019**

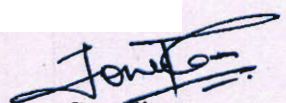

A one-day seminar titled ‘Intellectual Property Rights’ was organized by Department of Pharmacy, MIT on 9th March 2019. The seminar commenced at 10 o, clock. Mr. Jonee Panwar, welcomed the gathering. Dr. NK Sharma, principal of the college inaugurated the seminar by lighting the ceremonial lamp and delivered the inaugural address.

Intellectual property right (IPR) is the rights granted to the creators of intellectual property and include trademarks, copyrights, patent, industrial design rights and some jurisdictions and trade secrets. Rather than protecting possessions, intellectual property law protects exclusive rights to use or reproduce the intellectual property (IP). Copyrights protect expression while patents protect inventions and neither protects ideas.

The technical session started with an excellent and interactive presentation on the “Copyright Systems in India” by Dr. Ajay Kumar Sharma, Head, Department of Biotechnology Meerut Institute of Engineering & Technology. Dr. Sharma started by explaining the importance of IPR in the present scenario. The history of copyright, followed by the different types and the dual role played by copyrights were discussed. The talk gave a clear idea about the different rights granted by copyright such as the economic and moral rights, about right of paternity and right of integrity which comes under the moral rights. The topic of infringement of copyright was dealt with in detail. The session also gave an idea about the section 52 of the copyright law. The seminar on IPR created great awareness among students, research scholars and faculty of Meerut Institute of Technology about the important concepts related to IPR, copyrights and patent issues. The programme included discussions on the importance of IPR and their protection, an overview on copyright systems in India, identification of IP, patenting tools, procedure, etc.

In the second session, Dr. Sharma delivered a motivating lecture on the “Role of patent search in promoting Innovation”. The different tools available for patenting were introduced in this session. The topics such as prerequisite and requirement for patentability were explained. The importance to file patents and the patent filing procedures were stressed in the presentation. The patents classified into IPC (International patent classification), USPC (United States patent classification) and CPC (Cooperative patent classification) by World Intellectual Property

The seminar came to an end at 12 pm with the vote of thanks by Mr Jonee Panwar.

**REPORT ON SEMINAR**  
**“Quality Control of Herbal Drugs”**

on

**8th September 2018**

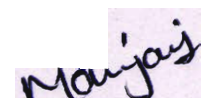

Department of Pharmacy Meerut Institute of Technology (DPMIT) organized a seminar on **“Quality Control of Herbal Drugs”** on 8th September 2018 in seminar hall. The seminar focused on quality parameters of Herbal drugs. The programme started at 10:00 am with the welcome address by Ms. Manjari Verma. The dignitaries on the dais were Professor S. K. Gupta, Director, Department of Pharmaceutical Technology, MIET, Dr. Sanjeev Maheshwari, Director, MIT and Dr. Neeraj Kant Sharma, Principal, Department of Pharmacy.

Opening remarks and introduction of the programme was given by Dr. Neeraj Kant Sharma. He welcomed all the dignitaries and the speaker Prof. S. K. Gupta and expressed his gratitude for giving the time for this event which will be of great interest. Interested faculty and students from various institutes attended the seminar.

The speaker Prof. S. K. Gupta started his views on Quality of Herbal drugs and said that, without proper quality control, there is no assurance that the herb contained in the package is the same as what is stated on the outside label. Improvements in analytical methods led to improvements in harvesting schedules, cultivation techniques, storage, activity & stability of active compounds and product purity. He emphasizes on current thinking and practices in quality control and standardization of herbal drugs highlighting several integrated approaches. He gave information for developing knowledge of various techniques including macroscopy, microscopy, HPTLC, HPLC, LC-MS/MS, GC-MS etc. with the development of integrated methods for evaluation of botanicals used in traditional medicine.

In the end, assessment of herbal drugs through bio-analytical techniques, bioassay guided isolation, enzyme inhibition, pharmacological, microbiological, antiviral assays and safety related quality issues were discussed by him.

The speaker was felicitated by Dr. Neeraj Kant Sharma. Finally, the session was concluded and the speaker interacted with the students. The programme wrapped up around 01:00 pm. The vote of thanks was given by Ms. Manjari Verma.

## FDP Report

on

## Cyber Security

Date: 12-Oct.-2018

A one week faculty development programme on “**Cyber Security**” was held in the Department of Computer Science and Engineering from 08/10/2018 to 12/10/2018.

The FDP inaugurated by our chief guest Shri Vishnu Saran, Chairman and Director Dr. Sanjeev Maheshwari.

In FDP twelve faculty members participated and also received certificate.

At valedictory ceremony Mr. K N Tripathi, thanked to chairman and director sir for allowing us to organized the FDP for the faculty members. He also expressed his gratitude to all the speakers and participant for sparing their time for the FDP.

There is a brief summary of each day of the session:

The first day on 08-10-2018, view on “**Infrastructure & network security**” was made by Professor Ajai verma. He had given a complete picture about the concerned topic with clear explanations about its definition, objectives, origin with a detailed description.

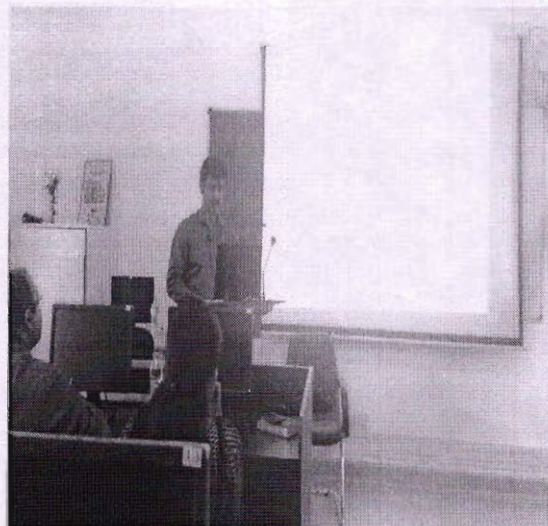

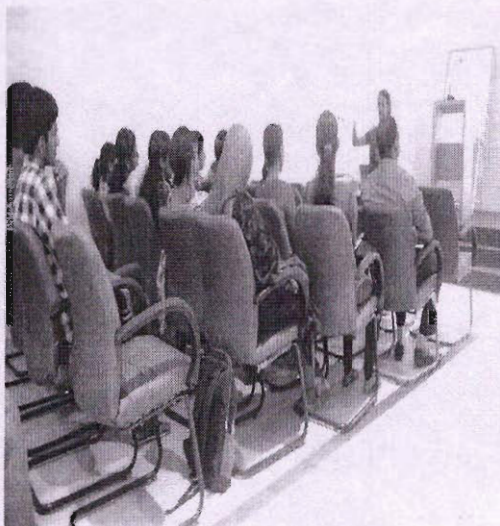

The second day’s (09-10-2018) morning session had the turn being given to Mr. Nagresh Kumar who presented a topic on “**Digital Privacy**”. He meticulously explained various concepts on Malware and encryption algorithm.

The third day (10-10-2018) had a fresh start with a session on “**Phishing and scam in the Internet**” put forward by the Mr. Shailendra . The goal of cyber forensics, which is to examine digital media in a forensically sound manner with the aim of identifying, preserving, recovering, analyzing and presenting facts and opinions about digital information, was well mentioned.

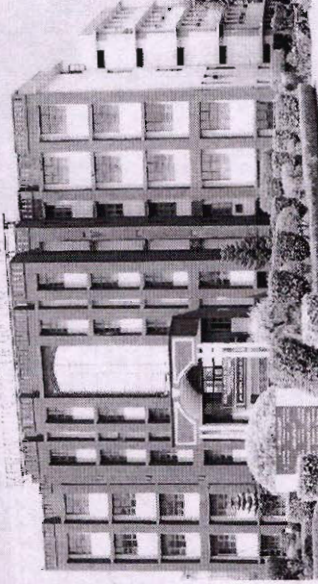

The fourth day (11-10-2018) start with a session on “**Network Intrusion Detection & Prevention**” by the Mr. Suresh Kumar. He also told about “**Identity theft in the internet and Mobile Protection**”

The final day (12-10-2018) of the one - week program was clinched down with topic, “**Cyber Laws and Forensics**” by Ms. Shilpi Gupta.

The whole week of the information-packed Faculty Development Program was undoubtedly a space for gaining better understanding of the concerned subjects. It has promoted professional development in every aspect, in addition to improving various skills that resonates with the faculty's individual goals, strategic priorities as well as departmental and institutional missions.

**Learning Outcomes**

- ? Understand, gain, employ, design and implement appropriate security technologies and policies to protect computers and digital information.
- ? Identify & Evaluate Information Security threats and vulnerabilities in Information Systems and apply security measures to real time scenarios.
- ? Identify common trade-offs and compromises that are made in the design and development process of Information Systems demonstrate the use of standards and cyber laws to enhance information security in the development process and infrastructure protection.
- ? Demonstrate the use of standards and cyber laws to enhance information security in the development process and infrastructure protection

**About the Institute**

Meerut Institute of Technology (MIT) is affiliated to the Dr. A. P. J. Abdul Kalam Technical University (AKTU), Lucknow). The Institute follows the syllabus and course structure constituted by AKTU. The University shall conduct all end of term examinations and also award degrees to successful candidates. The Main Vision of the institute is to be an excellent Technical Institute in the country producing graduates having innovative concepts, strong technical background, regards to human values, and committed to serve the community.

**About the Department**

The Department of Computer Science and Engineering at MIT was established in the year 2007. The Department caters all the needs of B.Tech. Course and provides conducive & healthy environment for learning which helps the budding professional to enhance their computing skills. The focus is to provide a platform for cutting edge technology and for imparting state of the art education. Thus, our maturing software professionals get crucial training in all the emerging fields of Computer Science and Engineering. The Department emphasizes on three aspects of today's challenging Computer Science & Engineering Scenario, Innovative Thinking, Practical/Real world Implementation and Collaborative Approach. All these aspects help a Computer Engineering Professional to grasp and use his/her potential up to the mark and sustain him in the cut throat competitive world. Apart from course curriculum department empowers students to have excellence in technical education and research to serve as a valuable resource for industry and society. Department has collaborated with industry (companies including IBM, Wipro, Adobe, TCS, etc.) to enhance hands-on skills.

**About Workshop**

The course has been designed to give participants an extensive overview of cyber security issues, tools and techniques that are critical in solving problems in cyber security domains. The course aims at providing participants with concepts of computer security, cryptography, digital money, secure protocols, detection and other security techniques. The course will help participants to gauge understanding in essential techniques in protecting Information Systems, IT infrastructure, analyzing and monitoring potential threats and attacks, devising security architecture

## विद्यार्थी के जीवन को प्रभावित करने में शिक्षक की भूमिका

परतापुर बाईपास स्थित मेरठ इंस्टीट्यूट ऑफ टेक्नोलॉजी (एमआईटी) में गोष्ठी का आयोजन हुआ, जिसका विषय **विद्यार्थी के जीवन को प्रभावित करने में शिक्षक की भूमिका** रहा। इस दौरान मुख्य वक्ता प्रांत संगठन मंत्री, विद्या भारती से **तपन कुमार** ने एमआईटी के शिक्षकों को शिक्षण परिवेश विकसित करने के गुर सिखाए। उन्होंने कहा शिक्षा का उद्देश्य मात्र साक्षर होना नहीं है, अपितु सुशिक्षित, सुसंस्कृत, समर्पित होना है और शिक्षण एक दैवीय उत्तरदायित्व है।

शिक्षक का दर्जा समाज में हमेशा से ही पूजनीय रहा है। कोई उसे गुरु कहता है, कोई शिक्षक कहता है, कोई आचार्य कहता है, तो कोई अध्यापक या टीचर कहता है ये सभी शब्द एक ऐसे व्यक्ति को चित्रित करते हैं, जो सभी को ज्ञान देता है, सिखाता है और जिसका योगदान किसी भी देश या राष्ट्र के भविष्य का निर्माण करना है। सही मायनो में कहा जाये तो एक शिक्षक ही अपने विद्यार्थी का जीवन गढ़ता है। शिक्षक ही समाज की आधारशिला है। एक शिक्षक अपने जीवन के अन्त तक मार्गदर्शक की भूमिका अदा करता है और समाज को राह दिखाता रहता है, तभी शिक्षक को समाज में उच्च दर्जा दिया जाता है। शिक्षक ही समाज का शिल्पकार और मार्गदर्शक है

शिक्षण की गतिविधियां उस समय सर्वाधिक प्रेरणादायक होती हैं, जब वे विद्यार्थियों को या तो समस्या का व्यावहारिक रूप से अन्वेषण करने के लिए जोड़ते हैं। या समस्या के समाधान के द्वारा चिंतन के कौशलों को विकसित करने के लिए सक्रिय रूप से जोड़ते हैं।

इस अवसर पर चेयरमैन विष्णु शरण अग्रवाल, डायरेक्टर जनरल जे.एम गर्गा, डायरेक्टर डॉ संजीव महेश्वरी, प्रिंसिपल डॉ हिमांशु शर्मा, डी.फार्मा प्रिंसिपल नीरज कांत शर्मा, के.एन त्रिपाठी, विश्वास गौतम उपस्थित रहे

**NOTICE**

**Date: 2-Nov-2018**

It is my immense pleasure to inform all of you that department of BBA & B.Com at MIT-PC is going to conduct a seminar on **“Entrepreneurial Opportunities in Rural India”** as per the following details:

**Title of Seminar** : **“Entrepreneurial Opportunities in Rural India”**  
**Date & Timings** : 26<sup>th</sup> Nov 2018 at 10:00 pm to 4:00 pm

The seminar will centre about following broad themes, but not limited to them:-

- Rural Entrepreneurship – Its importance and its impact on the Economy
- Business models for Rural Entrepreneurship – Global and India
- Impact of Globalization on Rural Entrepreneurship
- Opportunities for Rural Entrepreneurs in Manufacturing Sectors
- Opportunities for Rural Entrepreneurs in Service Sectors
- Issues and challenges faced by Rural Entrepreneurs and how to address them?
- Role of Government (including Institutional Eco-systems) in promoting Rural Entrepreneurship
- Role of NGOs and Corporate in promoting Rural Entrepreneurship

Interested participants may submit paper on the above topics or any other related topic. All the participants will get a certificate of participation.

27-Nov 2018

Concluding Remarks

Department of Business Administration and commerce has organized a Seminar on "Entrepreneurship Opportunities in Rural India" on 26 Nov 2020 at 10:00am to 4:00 pm. It was the first seminar conducted by the department. We have selected this theme of Entrepreneurship opportunities in Rural India because now a day everybody is talking about big entrepreneurs be it Ambani or Adani but hardly anybody is talking about these types of tiny opportunities & their importance for our economy. I am very glad to mention that we have got more than 15 speakers to present their views on the topic including our Honorable chief Guest Dr. I.V Thapliyal, General Manager Marketing, Parag Diary, Meerut. Dr. Thapliyal told some business models for rural entrepreneurship for both manufacturing as well as service sector and some of the challenges with rural entrepreneurs; apart from this Dr. Thapliyal discussed about the impact of globalization on rural India and existing businesses of across the country.

The seminar ended with the concluding remarks from the undersigned and distribution of certificate to all the participants. The event was very successful and there were about 50 participants.

Thanks

Ms. Shardha Kalia

(Department In-charge)
