REPORT ON SEMINAR

"Recent Advancement of Nanoparticles in Pharmaceutical Industry"

on

8th November 2019

Department of Pharmacy Meerut Institute of Technology (DPMIT) organized a seminar on "Recent Advancement of Nanoparticles in Pharmaceutical Industry" on 8th November 2019 in seminar hall. The seminar focused on developing nanoparticles for effective drug delivery. The programme started at 01:00 pm with the welcome address by Mr. Jonee Panwar. The dignitaries on the dais were Dr. Anoop Kumar, Professor, Department of Pharmaceutical Technology, MIET, Dr. Alok Chauhan, Director, MIT and Dr. Neeraj Kant Sharma, Principal, Department of Pharmacy.

Opening remarks and introduction of the programme was given by Dr. Neeraj Kant Sharma. He welcomed all the dignitaries and the speaker Dr. Anoop Kumar and expressed his gratitude for giving the time for this event which will be of great interest. Interested faculty and students from various institutes attended the seminar.

The speaker Dr. Anoop Kumar talked about current status and future scope of nanoparticles in drug delivery. He described Nanotechnology as a revolutionary field of micro manufacturing involving physical and chemical changes to produce nano-sized materials. He emphasized on significance of nanomaterials in drug delivery, various nanoscale drug delivery systems, applications of Nanoscale drug delivery systems and a glimpse to future of nanosize drug delivery systems. He also talked about systematic approach for commercial-scale utilization of smart nanomaterials in the pharmaceutical analysis in terms of economic challenges, health & safety concern of nanomaterials and life cycle assessment within pharma industry are comprehended.

In the end, the challenges and opportunities for the future development of smart nanomaterials for pharmaceutical analysis in regards to sustainability perspectives were elaborated by him. Dr. Anoop Kumar encourages the students to develop their interest for nanoparticles for drug delivery tool.

The speaker was felicitated by Dr. Neeraj Kant Sharma. Finally, the session was concluded and the speaker interacted with the students. The programme wrapped up around 04:00 pm. The vote of thanks was given by Mr. Jonee Panwar.

REPORT ON SEMINAR

“Developing Leadership Capability within the Pharmacy Profession”

on

1st February 2020

Department of Pharmacy Meerut Institute of Technology (DPMIT) organized a one day seminar on **“Developing Leadership Capability within the Pharmacy Profession”** on 1st February 2020 in seminar hall. The seminar focused on developing leadership skills in pharmacy profession. The programme started at 10:00 am with the welcome address by Mr. Vijaybabu Mudaliyar. The dignitaries on the dais were Dr. Nitin Sharma, Professor, Department of Pharmacy, MIET, Meerut, Dr. Alok Chauhan, Director, MIT and Dr. Neeraj Kant Sharma, Principal, Department of Pharmacy.

Opening remarks and introduction of the programme was given by Dr. Neeraj Kant Sharma. He welcomed all the dignitaries and the speaker and expressed his gratitude for giving an opportunity to organize a seminar on a theme, relevant to pharmacy profession. Interested faculty and students from various institutes attended the seminar.

The speaker Dr. Nitin Sharma shared his experience and talked about Leadership skills. He emphasized on effective communication skills, holistic judgement, effective listening skills and thinking forward. He gave several examples of how Leadership is a key part of the work of all pharmacists and pharmaceutical scientists, regardless of sector, location or experience. He said developing leadership behavior is an integral element of pharmacists' training and learning in order to contribute to the effective running and future direction of the organisation within which they work and, ultimately, to enhance patient care and outcomes.

Mr. Vijaybabu Mudaliyar also encourage the students to develop their leadership behaviours, for their own personal development and for the benefit of patients, the public and the profession. He also guides valuable self-assessment tool for anyone in health and care services, who would like to identify where their leadership strengths and development needs lie and to assist them with their professional development.

The speaker was felicitated by Dr. Neeraj Kant Sharma. Finally, the session was concluded and the speaker interacted with the students. The programme wrapped up around 12:30 pm. The vote of thanks was given by Mr. Vijaybabu Mudaliyar.

WOMEN CELL MIT MEERUT

As women, she take care of everyone — her spouses, children, parents, other family members, and even friends. However, they tend to neglect themselves, especially when it concerns their health. Elder and long-term care issues affect women more often because they live longer; have higher rates of disability and chronic health problems, which puts them at greater need for state and community resources to aware them towards their health and related disorders. It is the responsibility of society to raise awareness about cancer.

Dr. Neeta Kumar, MD Scientist-“E”, Division of Child Health (Reproductive Health & Nutrition) & Innovation and Translation, Research (AIIMS Delhi) was the key Speaker for the webinar. Dr. Kumar discussed various aspects of women health relating to the cervical cancer, breast cancer & ovarian cancer. She said that- “Every step taken in the direction of raising awareness against cancer will lead to a major change in society”. She also discussed about the diet management and the Berating techniques to manage these types of cancer.

Participants discussed their end-to-end queries with Dr. Kumar

Department of Business Administration & Commerce

31-July 2020

Concluding Remarks

Department of Business Administration and commerce has organized a Webinar on "Implementation of Maslow's theory in current Scenario" on 30 July 2020 at 3:00pm to 4:00 pm. In this webinar our learned faculty Ms. Reena Kapoor expressed her views over implementation of Maslow's theory in current scenario i.e. about how by applying Maslow's Hierarchy of needs in the workplace, you need to understand the needs and how they impact motivation. Each need builds on the last, allowing a person to feel more fulfilled, which in turn encourages motivation and creative thinking. Maslow's theory is useful for both personal development and workplace growth. By identifying what humans need and what drives and motivates people, employers and employees can develop mutually beneficial relationships and positive environments conducive to work. The session was very interesting and approximately 70 participants were present in the webinar.

At the end of the webinar all the participants were requested to get their certificate of participation from the office of undersigned.

Thanks

Dr. Sandeep Kapoor

WEBINAR ON DIGITAL BOOM (2020-07-30 at 02:34 GMT-7)

The screenshot shows a Zoom meeting interface. At the top, there's a status bar with "You are presenting" and "Microphone on". Below that is a grid of participants. The first row includes participants with initials R, S, and another R. The second row includes participants with initials A, A, and P. A presentation slide is visible on the right side of the grid, showing a person's profile picture and the text "MITT". At the bottom of the meeting window, there's a title bar that says "WEBINAR ON DIGITAL BOOM" and a toolbar with various icons.

Concluding Remarks

Department of Business Administration and commerce has organized a Webinar on “21st Century Management Education” on 8 August 2020 at 11:00am to 12:00 noon. In this webinar our learned faculty Ms. Akshi Jain expressed her knowledge on 21st century management education its importance in the current situation. She told the students that goal of a company is to make money for the company and its executives. Maximizing shareholder value has been the catch cry of large organizations for the last 50 years and is still, driving the behavior of most large organizations with so much of pressure manager cannot afford any mistakes so they need to get ready for the worst situations at any point of time for this purpose she emphasized on the virtual learning. The session was very successful and approximately 110 participants were present in the webinar.

At the end of the webinar all the participants were requested to get their certificate of participation from the office of undersigned.

Concluding Remarks

Department of Business Administration and commerce has organized a Webinar on “**Leaders are leading or feeding**” on 17 August 2020 at 3:00pm to 4:00 pm. In this webinar our learned faculty Ms. Reena Kapoor expressed her views over implementation of Leadership theories & their importance in current scenario i.e. whether or not leadership itself can be taught, there is no question that there are a number of core skills that most good leaders have. These skills can be learnt like any other. Some of very interesting examples quoted by her in order to explain the various traits of leadership, apart from this she told students that how to behave like leaders, how to think like leaders, what is the importance of leader and team for an organization. The session was very interesting and approximately 120 participants were present in the webinar.

At the end of the webinar all the participants were requested to get their certificate of participation from the office of undersigned.

Thanks

The FDP inaugurated by our chief guest Shri Vishnu Saran, Chairman and Director Dr. Sanjeev Maheshwari. This event organized by Mr. K N Tripathi. He welcomed to participant and also briefly described about Faculty development Program and also introduced our FDP speakers,

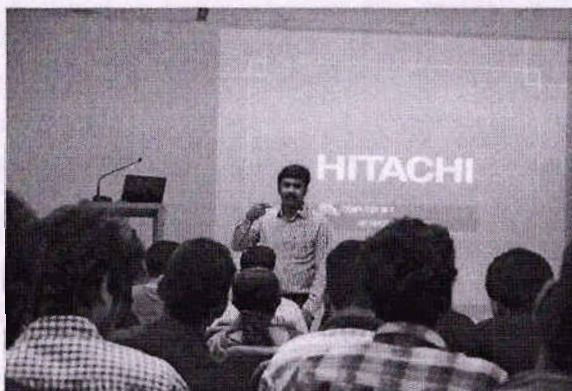

- Prof. Pradeep Pant (Prof. CSE Department, MIET, Meerut)
- Mr. Nagresh Kumar (Assoc. Prof., CSE Department, MIET, Meerut)
- Ms. Nidhi Parashar (Assistant Professor, CSE Department, MIT, Meerut)
- Dr. Mukesh Rawat(Prof., CSE Department, MIET. Meerut)
- Dr. Ajay Kumar Singh (Prof., CSE Department, Meerut)
- Ms. Shilpi Gupta (Assistant Professor, CSE Department, MIT, Meerut)
- Mr. Amol Sharma (Assistant Professor, CSE Department, MIT, Meerut)

In this FDP, speakers covered the topics such as creating podcasts which can be used to teach languages and summary of lectures followed by creating video lectures by different methods such as **TableTop, ScreenCast and SlideCast**.

They also introduced video creation software such as Open Broadcaster Software Studio (OBS Studio) and also audio editing software Audacity. Participants learned to create

their audio / video lectures. The participants enthusiastically tried various methods of e-content creation and presented it for review.

Outcome: The participants have acquired knowledge of the different aspects of designing, planning and delivering quality e-content for teaching-learning and also about the appropriate developmental tools needed to develop e-content in their respective disciplines using text, images, audio and video. This was evident in the quality of audio and video content developed by some of the participants that was reviewed by the resource person during the second session.

About the Institute

Meerut Institute of Technology (MIT) is affiliated to the Dr. A. P. J. Abdul Kalam Technical University (AKTU), Lucknow). The Institute follows the syllabus and course structure constituted by AKTU. The University shall conduct all end of term examinations and also award degrees to successful candidates. The Main Vision of the institute is to be an excellent Technical Institute in the country producing graduate shaving innovative concepts, strong technical background, regards to human values, and committed to serve the community.

About the Department

The Department of Computer Science and Engineering at MIT was established in the year 2007. The Department caters all the needs of B.Tech. Course and provides conducive & healthy environment for learning which helps the budding professional to enhance their computing skills. The focus is to provide a platform for cutting edge technology and for imparting state of the art education. Thus, our maturing software professionals get crucial training in all the emerging fields of Computer Science and Engineering.

The Department emphasizes on three aspects of today's challenging Computer Science & Engineering Scenario, Innovative Thinking, Practical/Real world Implementation and Collaborative Approach. Apart from course curriculum department empowers students to have excellence in technical education and research to serve as a valuable resource for industry and society. Department has collaborated with industry (companies including IBM, Wipro, Adobe, TCS, etc.) to enhance hands-on skills.

Objective of the FDP

- To demonstrate the *Four-Quadrant approach* & tools for Online Teaching & Learning (OTL).
- To demonstrate the Configuration of Educational videos ecosystem & creation of various Videos types.
- To demonstrate the creation of Ecosystem for E-assessments for learner's/students classroom activities.

Topics

- Role of Creative Commons & OER for OTL.
- Creating Online Classroom & E-assessment Frame- work: *Online Quizzes, Rubrics-based Evaluation; MOODLE based Assessment*, Cumulative Grading.
- Creation of Educational video ecosystem: *recording, mixing other educational contents, compressing, & delivering.*

Pedagogy: The Hands-on sessions.

Outcome: A participant is expected to configure the course classroom ecosystems & deliver educational videos.

Who can participate: Faculty & Research Scholars (PhD/PG).

Registration

There will be **no registration fees** for attending the FDP. To participate in the FDP, it is mandatory to submit the registration form.

Meerut

A one day workshop on **Outcome based Education and NAAC Accreditation** process has been organized on December 7, 2020 for the faculty members of MIT, Meerut. Dr. Girish Tyagi, Professor, Chemical Engineering, MIET, Meerut has delivered talk and described the concept of outcome based education. He also discussed and explained that how course outcomes can be drafted on taking the blooms taxonomy into consideration.

Dr. Neeraj Kant Sharma, Principal (Pharmacy) & IQAC Coordinator, has expressed his gratitude that Dr. Greesh Tyagi has given consent and time to deliver a talk on the topic for the faculty members.

Prof. Alok Chauhan, Director – MIT, Meerut, has appreciated the efforts of IQAC Cell to organize the workshop for the faculty members of the institute.

FACULTY DEVELOPMENT PROGRAMME ON “OPERATIONS MANAGEMENT: DEVELOPING NEW PERSPECTIVE IN THE ERA OF ARTIFICIAL INTELLIGENCE / MACHINE LEARNING”

A FDP was organized from 30/05/2020 – 03/06/2020 on “OPERATIONS MANAGEMENT: DEVELOPING NEW PERSPECTIVE IN THE ERA OF ARTIFICIAL INTELLIGENCE / MACHINE LEARNING”. Mr. Kuldeep Dagar, (IIT Kharagpur, IIFT Delhi) has delivered his talks on the above-mentioned subject.

The link of the event was shared with all the student and faculty members of MIT, Meerut and as well as with other institutions and universities across India. 1459 people had registered for the FDP and 786 participants attended the webinar which includes faculty members, research scholars and students.

Natural Language Processing or NLP is a field of Artificial Intelligence that gives the machines the ability to read, understand and derive meaning from human languages.

Uses
 NLP enables the recognition and prediction of diseases based on electronic health records and patient's own speech. Organizations can determine what customers are saying about a service or product by identifying and extracting information in sources like social media. This sentiment analysis can provide a lot of information about customers' choices and their decision drivers. Amazon's Alexa and Apple's Siri are examples of intelligent voice driven interfaces that use NLP to respond to vocal prompts and do everything like find a particular shop, tell us the weather forecast, suggest the best route to the office or turn on the lights at home. Having an insight into what is happening and what people are talking about can be very valuable in financial trends. Powered by IBM Watson NLP technology, LegalSifter developed a platform to automate routine litigation tasks and help legal teams save time, drive down costs and shift strategic focus.

Machine Learning Model Selection and Prediction

The diagram illustrates the machine learning workflow. It starts with 'Feature Engineering' leading to 'Data'. From 'Data', the process splits into 'Training Dataset' and 'Testing Dataset'. The 'Training Dataset' leads to 'Model Tuning', which then leads to 'Evaluation'. The 'Testing Dataset' also feeds into the 'Evaluation' step. Finally, the 'Evaluation' step leads to the 'Final Model', which is then used for 'PREDICTION'.

On the right, there is a list of course days from Day 1 to Day 6, each with a thumbnail and a timestamp. Below the video player, there are sections for 'Students' Feedback', 'Teacher's Feedback', and 'Employer's Feedback', each with a PDF icon. At the bottom right, there is a video player for 'The Kapil Sharma Show'.

The recording of the same has also been uploaded on the official YouTube channel @MITMeerut of Meerut Institute of Technology, Meerut. The YouTube link for the same is <https://www.youtube.com/playlist?list=PLhdrUpzzgqDR8BYuYliVq7726r5PMj03n>.

The feedback link was shared with the participants. The feedback given was analysed and the report is attached.

Mr. Suraj Malik (HoD CSE) gave vote of thanks to the speaker. Mr. K.N. Tripathi (Convenor) extends his gratitude to all the attendees and participants. Prof. (Dr.) Alok Chauhan (Director, MIT, Meerut) has appreciated the speaker for giving a roadmap on one of the recent technologies now a days.
